

2017 Modified Kart Engine Builder Agreement

By signing this form, I/we agree to follow the guidelines set forth in the 2017 Lucas Oil Off Road Series/ Lucas Oil Regional Off Road Series Kart Rule Book regarding any engine built for competition in said series. In addition, I/we agree to seal all engines using Official LOORRS/ LORORS Mod Kart engine seals.

Requirements:

Seal all Mod Kart engines to be used in LOORRS/ LORORS competition. Seal must connect from 1 head bolt to one valve cover bolt. The cable seals must be installed in a manner that prohibits the removal of valve cover and cylinder head from engine while the seal is installed. Each engine must also be accompanied by a completely filled out and signed engine registration form presented to tech before being used in competition.

Penalty:

If a sealed engine is found to be illegal, any driver that has used said engine in competition will receive a disqualification for all rounds the engine was used in. In addition, the engine builder’s license will be revoked for the remainder of the season.

I hereby acknowledge the above requirements and penalties as well as the rules written in the 2017 Kart Rule Book.
